

SOFTWARE DEVELOPMENT AND SERVICE LEVEL AGREEMENT

WhatsApp Messaging SaaS Platform · Jewellery Management POS System

PARTIES TO THIS AGREEMENT

THE CLIENT Gursimran Singh s/o: _____ r/o: _____ Aadhaar No.: 950529318503	THE PROVIDER Ryntra Tech Private Limited Regd. Office: A-30, Max Heights, Sonapat, Haryana CIN: U62099HR2026PTC140351 Rep. by: Mandeep Singh Arora, Authorised Signatory Aadhaar No.: 812092453773
--	---

Effective Date 10th April 2026, Delhi

Governing Law Laws of India · Exclusive Jurisdiction: Delhi

RECITALS

- A. The Provider is engaged in the business of software development, SaaS platforms and POS systems.
- B. The Client desires to engage the Provider for the custom development and delivery of (i) a WhatsApp Messaging SaaS Platform and (ii) a Jewellery Management POS System with integrated WhatsApp messaging, as more particularly described in Annexure-A and Annexure-B.
- C. The Parties have mutually agreed upon the timelines, payment terms, service levels and other conditions as set out herein.

1. Definitions

"WhatsApp SaaS Platform" – the platform described in Annexure-A.

"Jewellery POS System" – the system described in Annexure-B.

"Services" – development, delivery, deployment and post-delivery support of both systems.

"Effective Date" – 10th April 2026.

All other capitalised terms shall have the meaning ascribed in the respective Annexures or this Agreement.

2. Scope of Services & Timelines

The Provider shall develop and deliver the Services in accordance with the functional and technical specifications attached as Annexure-A and Annexure-B.

Deliverable	Timeline from Effective Date
WhatsApp Messaging SaaS Platform	2 months — Completion & Go-Live
Jewellery Management POS System	3 months — Completion & Go-Live

3. Payment Terms

3.1 Total Contract Value: ₹5,00,000 (Rupees Five Lakhs only) inclusive of all applicable GST. No additional amount shall be payable by the Client over and above this sum.

3.2 Payable in five equal instalments of ₹1,00,000 each:

Instalment	Amount	Due Date / Trigger	Milestone
1st	₹1,00,000	On signing of Agreement	Agreement execution
2nd	₹1,00,000	Within 30 days of signing	Onboarding + WhatsApp SaaS development start
3rd	₹1,00,000	On Go-Live of WhatsApp SaaS	WhatsApp SaaS Platform Go-Live
4th	₹1,00,000	On Go-Live of Jewellery POS	Jewellery POS Go-Live
5th	₹1,00,000	End of 3-month support period	Post Go-Live support completion

3.3 All payments shall be made by bank transfer / UPI / NEFT to the Provider's designated account.

3.4 Milestones linked to payments shall be as mutually agreed upon by the Parties from time to time.

4. Service Level Commitments (SLA) — Post Go-Live

The Provider guarantees the following performance levels after successful Go-Live:

Service	SLA Target	Measurement	Credit for Breach
Platform Uptime	99.5% / month	Measured monthly	3% of monthly fee per 1% below SLA
Message Delivery Rate	95% / campaign	Per campaign	Proportionate credit on request
Support Response – Critical	4 business hours	Ticket to first response	1 day credit per breach
Support Response – Non-Critical	24 business hours	Ticket to first response	Credit at Provider's discretion
Bug Fix – Critical	Within 48 hours	Report to deployment	2 days credit per breach
Bug Fix – Non-Critical	Within 7 business days	Report to deployment	1 day credit per breach

Important Rider: Service Level credits shall become operative only upon completion of the mutual testing and acceptance phase (initially 1 month from each Go-Live date). The Provider may extend this phase by up to 3 months with 7 days' prior written notice.

Monthly SLA reports shall be shared with the Client. Service credits shall be adjusted in the next invoice.

5. Post Go-Live Support

The Provider shall provide free support and maintenance for a period of three (3) months from the respective Go-Live dates of each system.

6. Client Obligations

The Client shall:

- Provide all required documents, content and approvals on time.
- Obtain end-user opt-in consent before sending any WhatsApp messages.
- Comply with WhatsApp Business Policy and all applicable Indian laws.

7. Intellectual Property Rights

Upon full and final payment of the total consideration, all source code, designs and deliverables shall vest exclusively with the Client.

8. Confidentiality, Data Protection & Compliance

Both Parties shall maintain strict confidentiality. The Provider shall store API credentials securely and comply with the Digital Personal Data Protection Act and the Information Technology Act. The Client shall ensure all messages comply with Meta's policies.

9. Term & Termination

This Agreement commences on the Effective Date and shall continue until full payment and successful Go-Live of both systems. Either Party may terminate for material breach after 15 days' written notice.

10. Warranties

The Provider warrants that the delivered systems shall conform to the specifications in Annexure-A and Annexure-B and shall be free from material defects during the 3-month free support period.

11. Limitation of Liability

The Provider's total liability shall not exceed the total amount paid by the Client under this Agreement.

12. Dispute Resolution

Any dispute arising out of or in connection with this Agreement shall be resolved as follows:

- Step 1: Mutual discussion / mediation in Delhi.
- Step 2: If unresolved within 30 days — arbitration by a sole arbitrator appointed mutually under the Arbitration and Conciliation Act, 1996, seated in Delhi.
- Step 3: If arbitration fails — exclusive jurisdiction of the courts at Delhi.

13. Governing Law

This Agreement shall be governed by the laws of India.

14. Events Beyond Control (Force Majeure)

Neither Party shall be liable for any delay or failure in performance caused by events beyond its reasonable control, including but not limited to Meta downtime, internet failure, government action, acts of God, war, riots, epidemics or pandemics. The affected Party shall promptly notify the other in writing and shall use reasonable efforts to resume performance as soon as practicable.

15. Miscellaneous

- This Agreement constitutes the entire understanding between the Parties and supersedes all prior agreements.
- Any amendment must be made in writing and signed by both Parties.
- Assignment requires prior written consent of the other Party.
- Notices shall be sent by email or registered post to the addresses mentioned above.

IN WITNESS WHEREOF

The Parties have executed this Agreement on the date first written above.

ANNEXURE-A

WhatsApp Messaging SaaS Platform — Roles & Workflow

1. Platform Roles

Role 1 — Admin

Admins manage the entire platform and oversee client onboarding, system configuration, API integrations, billing and compliance.

- Manage platform settings and integrations with Meta WhatsApp API
- Approve or reject new client registrations
- Manage billing, pricing policies and messaging limits
- Manage staff accounts (marketing / onboarding team)
- Handle compliance, security policies and system performance monitoring

Role 2 — Internal Staff (Marketing / Onboarding Team)

Internal employees responsible for onboarding clients and configuring WhatsApp accounts.

- Review client-submitted documents
- Register client business with Meta Business Manager
- Verify WhatsApp phone numbers using OTP
- Configure WhatsApp Business API credentials and submit message templates
- Provide ongoing support to clients

Role 3 — Client / User (Business)

Businesses that use the platform to send WhatsApp messages to their customers.

- Register on the platform and upload business verification documents
- Submit WhatsApp message templates and upload contact lists
- Create messaging campaigns and monitor analytics and delivery reports

2. Client Onboarding Workflow

1. Client registers on the platform.
2. Client uploads business verification documents.
3. Internal staff reviews and verifies documents.
4. Staff registers the client in Meta Business Manager.
5. Client verifies their WhatsApp phone number using OTP.
6. WhatsApp Business Account (WABA) is created.
7. API credentials (WABA ID, Phone Number ID) are stored in the platform.
8. Client dashboard becomes active.

3. Messaging Workflow

9. Client creates or selects an approved message template.
10. Client uploads contact lists or selects saved contacts.
11. Client creates a messaging campaign.
12. Platform sends message requests to Meta Graph API.
13. Messages are delivered to end users via WhatsApp.

14. Delivery status and analytics are stored in the platform.

4. Template Approval Process

15. Client creates a message template.
16. Template is submitted to Meta for approval.
17. Meta reviews the template content.
18. Once approved, templates can be used for campaigns.

5. Security & Compliance

- Only verified businesses can use the messaging platform.
- All message templates must be approved by Meta.
- Opt-in consent from end users is required before sending messages.
- API tokens and credentials are stored securely in backend systems.
- Platform monitors spam complaints and message limits.

ANNEXURE-B

Jewellery Management POS System

1. System Roles

Admin / Owner

- Add / edit jewellery items and update gold and silver rates
- Manage inventory and perform stock adjustments
- View all reports and manage employee accounts
- Configure system settings

Manager

- Add new inventory and update item details
- View stock and create purchase entries
- View sales reports and approve discounts

Cashier / Salesperson

- Create bills, scan barcodes and search items
- Add customers and print invoices
- Accept payments — Cash / Card / UPI

2. Core POS Modules

Billing

- Scan barcode or search item — automatic price calculation
- Apply making charges and discounts — accept multiple payment modes
- Print invoice and send invoice via WhatsApp

Inventory Management

- Add jewellery items with barcode tagging and product images
- Track stock quantity, metal purity (18K / 22K / 24K), weight and dimensions
- Stock adjustments and inventory alerts

Gold Rate Management

- Update daily gold rate and silver rate
- Automatic jewellery price calculation based on live rates

Customer Management

- Customer name, phone number and purchase history tracking
- Jewellery exchange records

Reports

- Daily sales report · Inventory report · Stock valuation · Customer purchase report

3. Jewellery Item Data Structure

Basic Information	Metal & Weight Details	Pricing Fields
-------------------	------------------------	----------------

• Item ID • Item Name • Category (Ring, Necklace, Bracelet, etc.) • Barcode • Product Image	• Metal Type (Gold / Silver / Platinum) • Purity (18K / 22K / 24K) • Gross / Net / Stone Weight • Dimensions (L × W × H) • Ring Size (if applicable)	• Making Charge per Gram • Stone Price • Final Price (auto-calculated)
---	--	--

4. Barcode System

A barcode is a unique code printed on a small tag attached to every jewellery item. When the cashier scans the barcode, the POS system instantly retrieves item details such as weight, purity, price and category.

- Faster billing at the counter
- Accurate inventory tracking
- Reduced manual entry errors

5. WhatsApp Messaging Integration

The POS system can automatically send messages to customers using the WhatsApp Business API, including:

- Invoice message after purchase
- Order ready notification

6. Additional Business Features

• Product image catalogue • Advanced product search • Discount management • Old jewellery exchange	• Multipayment billing • Inventory alerts • Dashboard for sales overview • Automatic cloud backup
--	---

7. Basic Jewellery Billing Formula

Component	Calculation
Gold Price	Weight × Today's Gold Rate
Making Charges	Weight × Making Charge per Gram
Final Price	Gold Price + Making Charges + Stone Price + GST

— End of Agreement —
